

TC8000 Touch Computer

A REVOLUTIONARY DESIGN DELIVERS REVOLUTIONARY PRODUCTIVITY GAINS... ONE MORE HOUR, PER WORKER, PER SHIFT.

What makes the TC8000 so special? Everything. It's the ground-breaking all new warehouse mobile computer designed to deliver revolutionary productivity increases in the warehouse. In fact, on average, it saves 14% per worker versus the traditional form factors. And it's the only device on the market that simplifies it all — how your workers physically use the device and interact with your warehouse application. The TC8000 minimizes motion with an innovative scan angle that eliminates the thousands of times your workers need to tilt their device to see the screen. We integrated flexible handheld and hands-free scanning for an extra productivity boost — another industry handheld first. It's an amazing 33 percent lighter than the traditional device to minimize fatigue. And then we did something completely unprecedented by a device manufacturer — we integrated a tool that allows you to automatically transform your legacy Terminal Emulation (TE) “green screens” into elegant, graphics-based All-touch TE screens that are not only highly intuitive, but also dramatically reduce the number of interactions required to complete a task — no coding and no modifications to your host application are required. The result? Less time to complete the job and increased productivity. The TC8000 — the next big thing in warehouse mobility, only from Zebra.

Superior ergonomics for superior productivity and worker comfort

The new scan angle eliminates the constant tilting that traditional designs require to view the screen, increasing productivity by 14% through a 55% reduction in wrist motion and a 15% reduction in muscle effort.

Enterprise-class Android KitKat

Mobility Extensions (Mx) transforms Android™ to an enterprise-class OS, providing enterprise-class security, device management and data capture capabilities.

Rugged and ready for your warehouse

The super-rugged design is built for the challenging warehouse environment. With our most extreme impact ratings, the TC8000 operates reliably, even after 2,000 consecutive hits when tumbling and multiple 8 ft./2.4 m drops to concrete. The TC8000 is sealed, ready to handle jetting water and dust. And the TC8000 is built to handle constant temperature swings between extreme heat and cold — ideal in outside yards.

Triple-shift battery power and unsurpassed battery management

With the largest battery in its class, the TC8000 has ample power for three shifts. The PowerPrecision+ battery also provides extensive battery metrics that make it easy to spot and retire aging batteries that can no longer hold a full charge. And the battery can be changed in seconds — without powering down.

Capture multiple bar codes and entire forms with a single scan with SimulScan

SimulScan makes it easy to capture labels on boxes and pallets that contain many bar codes, as well as forms that might also contain needed text fields, check boxes, signatures and more.

An industry first — hands-free proximity scanning with a handheld device

The imager can be automatically triggered by the proximity sensor, whether the TC8000 is worn in the hip holster, on the shoulder strap or in the cart or desktop mount. Two modes

are available — near for close-up scanning from near contact to 6 in./15 cm and far, from contact to 1.96 ft./60 cm.

Advanced bar code scanning options

Our SE4750 imager with proprietary PRZM Intelligent Imaging technology offers unparalleled performance on just about any type of data imaginable — from 1D and 2D bar codes to fully searchable and editable documents. Our SE965 engine provides best-in-class 1D scanning performance, with patented Adaptive Scanning technology that delivers the widest working range in its class. All options capture bar codes in practically any condition.

Transform “green screens” to elegant all-touch screens with no host modification or coding

All-touch TE gives the front end of your Terminal Emulation apps a smart and intuitive touch interface, automatically — and your legacy TE green screens are always available to workers at the press of button. Create custom keyboards for different application screens to simplify data entry. And All-touch TE is pre-loaded and pre-licensed, ready to boost productivity right out of the box.

Advanced touchscreen technology for flexible data input

With our industry leading touch screen technology, workers can use a finger, a stylus or a gloved finger to interact with your apps, complete with multi-touch support.

INCREASE WORKER PRODUCTIVITY BY 14% IN YOUR WAREHOUSE WITH THE TC8000.

TC8000 Specifications Chart

| PHYSICAL AND ENVIRONMENTAL CHARACTERISTICS | |
|--|--|
| Dimensions | 9.17 in. L x 2.99 in. W x 2.52 in. D 233 mm L x 76 mm W x 64 mm D |
| Weight | Standard: 17.2 oz./490 g; Premium: 17.6 oz./500 g |
| Display | 800 x 480 pixels; 4.0 in. diagonal; transfective LCD display; 16.7 Million (24-bit) color support; 400 NITS |
| Touch Panel | Multi-touch projected capacitive; fingertip (bare or gloved) input; conductive stylus supported (sold separately); Corning® Gorilla® Glass |
| Power |  PowerPrecision+ Delivers better battery management; Lithium ion 6700 mAh with hot swap battery backup |
| Notifications | Audible tone, multi-color LEDs, vibration |
| Keypad | On-screen keypad |
| Voice and Audio | Dual speakers, Bluetooth wireless headset support |
| Expansion | USB, Serial for ISV developers (optional) |

| PERFORMANCE CHARACTERISTICS | |
|-----------------------------|--|
| CPU | Dual core 1.7 GHz processor |
| Operating System |  Android AOSP 4.4.3 (KitKat) with Mobility Extensions (Mx) for a true enterprise class OS |
| Memory | 1GB RAM; Standard model: 4GB Flash pSLC Premium model: 8GB Flash pSLC |
| Storage | SDXC compliant micro SD card slot |
| App Development | EMDK available through Zebra Support Central Web site |

| DATA CAPTURE | |
|------------------|--|
| Scanning Options | SE965: 1D standard range scan engine SE4750 SR or MR: Standard or medium range omnidirectional 1D/2D imaging engine |
| Camera | 8MP autofocus, f/2.4 aperture (optional) |
| NFC | Multi-protocol NFC (optional) |

| ZEBRA INTERACTIVE SENSOR TECHNOLOGY | |
|-------------------------------------|---|
| Light Sensor | Automatically adjusts display backlight |
| Motion Sensor | 3-axis accelerometer; 3-axis gyroscope (optional) |
| Navigation | Digital compass (optional) |
| Proximity | Sensor for auto hands free scanning |

| USER ENVIRONMENT | |
|----------------------|--|
| Operating Temp. | -4° F to 122° F/-20° C to 50° C |
| Storage Temp. | -40° F to 158° F/-40° C to 70° C |
| Humidity | 5% to 95% non condensing (condensing resistant optional) |
| Drop Specification | Multiple 8 ft./2.4 m drop to concrete at room temperature per MIL-STD 810G ; multiple 6 ft./1.8 m drop to concrete across full operating temperature range |
| Tumble Specification | 2,000 3.28 ft./1 m tumbles; meets and exceeds IEC tumble specifications |

* Results are dependent upon use case and scan frequency.

| USER ENVIRONMENT (continued) | |
|-------------------------------|---|
| Sealing | IP65 |
| Vibration | Sine 5-2000 Hz, 4g peak, 1 hour per axis; random 20-2000 Hz, 6g RMS or 0.04g2/Hz, 1 hour per axis |
| Thermal Shock | -40° F to 158° F/-40° C to 70° C rapid transition |
| Scanner Window | Corning® Gorilla® Glass |
| Electrostatic Discharge (ESD) | ±20kVdc air discharge; ±10kVdc direct discharge; ±10kVdc indirect discharge |

| WIRELESS LAN | |
|-------------------------|---|
| Radio | IEEE 802.11a/b/g/n/d/h/i |
| Data Rates | 5GHz: 802.11a/n — up to 150 Mbps; 2.4GHz: 802.11b/g/n — up to 72.2 Mbps |
| Operating Channels | Chan 36 - 165 (5180 - 5825 MHz); Chan 1 - 13 (2412 - 2472 MHz); Actual operating channels/frequencies depend on regulatory rules and certification agency |
| Security and Encryption | WEP, WPA — TKIP, WPA2- TKIP, WPA2-TKIP AES EAP TTLS, PAP, MSCHAP, MSCHAP v2, PEAPv0-MSCHAPv2, PEAPv1- EAP-GTC, EAP-TLS, EAP-FAST, LEAP |
| Multimedia | Wi-Fi Multimedia™ (WMM) |
| Certifications | 802.11n, WMM, WMM-PS, CCXv4, Wifi Direct, Wi-Fi Display (Miracast) |
| Fast Roam | PMKID caching, Cisco CCKM, OKC, 802.11r |
| Network Connections | Bluetooth; USB 2.0 OTG Host docking interface; 802.11r and 802.11k for enterprise voice roaming included |

| WIRELESS PAN | |
|--------------|---|
| Bluetooth | Bluetooth 4.0 (Bluetooth® Smart technology) |

| MOBILITY DNA SOLUTIONS | | |
